

RESEARCH GRANTS AND FELLOWSHIPS

Two Fellowships are being offered:

1) Joint FDS RCSEng-British Orthodontic Society Research Training Fellowship

This will normally be awarded for up to one year and is intended to support a clinical trainee in orthodontics who wishes to further their academic and research training.

2) The Faculty of Dental Surgery Research Fellowship

This will be for one year and awarded for a project in any area of oral and dental research.

Joint pump-priming grants available in 2021, all for up to £10,000 each:

Joint FDS-British Association of Oral Surgeons pump-priming grant

Intended to support research designed to benefit community or population oral health, and should be related to the field of oral surgery.

Joint FDS-British Society of Paediatric Dentistry pump-priming grants

Two pump-priming grants are being offered to support research into the oral health of children in the broadest sense.

Joint FDS-British and Irish Society of Oral Medicine pump-priming grant

Intended to support research designed to benefit community or population oral health, and should be related to the field of oral medicine.

Joint FDS-Society for the Advancement of Anaesthesia in dentistry pump-priming grant
