

Postgraduate Certificate in Clinical Education

- Long-established and highly regarded programme
- Both face-to-face and distance learning pathways available
- Reduced fees for BAOS Teaching and Learning Course completers
- Accredited by the Academy of Medical Educators and Advance HE

‘On the BAOS Teaching and Learning course I realised there is so much to learn to become a good teacher, so subsequently, I decided to undertake the Postgraduate Certificate in Clinical Education at Plymouth.

‘Both courses have helped me to take a positive step forward in my understanding of teaching and learning, and my students will benefit from it.

‘Thank you Pippa, Pat, Jane and Lucy for giving me this great opportunity.’

*Ciro Gilvetti , BAOS Teaching and Learning course, 2017;
Postgraduate Certificate in Clinical Education, 2019*
